Appl. No. 09/890,919 Atty. Docket No. CM2034 Amdt. dated 08/01/2003 Reply to Office Action of 03/13/2003 Customer No. 27752

## AMENDMENTS TO THE CLAIMS

- $\mathfrak{P}^{\mathsf{I}}$
- 1. (Currently amended) A leave-on cosmetic composition suitable for topical application to the skin comprising:
  - a) from about 6% to about 20% of a polyhydric alcohol; and
  - b) a cation containing polymer selected from the group consisting of cationic, basic, amphoteric and zwitterionic polymers and mixtures thereof;

wherein said composition comprises less than 4% of an anionic, zwitterionic or amphoteric surfactant and from about 0.01% to about 1.0% of  $[C_{10}$  to  $C_{16}]$   $C_8$  to  $C_{24}$  mono, -di and -tri acyl sugar esters.

- 2. (Previously presented) composition according to Claim 1 comprising from about 7% to about 15% by weight of the polyhydric alcohol, or mixtures thereof.
- 3. (Previously presented) A composition according to Claim 2 wherein the polyhydric alcohol is selected from the group consisting of glycerine, butylene glycol, propylene glycol, dipropylene glycol, polyethylene glycol, hexane triol, ethoxylated glycerine, propoxylated glycerine and mixtures thereof.
- 4. (Previously presented) A composition according to Claim 3 wherein the polyhydric alcohol is selected from the group consisting of glycerine; polyethylene glycol and mixtures thereof.
- (Previously presented) A composition according to Claim 4 wherein the cation containing polymer is a cationic polymer.
- 6. (Previously presented) A composition according to Claim 5 wherein the cationic polymer is a cationic polysaccharide selected from the group consisting of cationic cellulosic polymers, cationic polysaccharide gums and mixtures thereof.

Appl. No. 09/890,919 Aity. Docket No. CM2034 Amdt. dated 08/01/2003 Reply to Office Action of 03/13/2003 Customer No. 27762

- 7. (Previously presented) A composition according to Claim 6 wherein the cation containing polymer is selected from polyquaternium-10, guar hydroxypropyltrimonium chloride, hydroxypropyl guar gums, or mixtures thereof.
- 8. (Previously presented) A composition according to Claim 7 comprising from about 0.01% to about 20% by weight of the cation containing polymer, or mixtures thereof.
- (Previously presented) A composition according to Claim 8 wherein the composition comprises less than 2% of an anionic, zwitterionic or amphoteric surfactant.
- 10. (Previously presented) A composition according to Claim 9 wherein when the composition comprises an anionic surfactant, the composition has a ratio of cation containing polymer to anionic surfactant of greater than 1.
- (Previously presented) A cosmetic method for moisturizing skin comprising the step of applying to the skin a composition according to Claim 10.
- 12. (Previously presented) The cosmetic method of claim 11 wherein the composition comprises a cation containing polymer selected from the group consisting of cationic, basic, amphoteric and zwitterionic polymers, and mixtures thereof.
- (Previously presented) The cosmetic method of claim 13 wherein said composition is left on the skin.
